Paul Corcoran, of New Albany, and William Putnam, students of the Susquehanna Collegiate institute, says the Reporter-Journal, believe that they are on the track of Pat Crowe, the kidnapper of young Cudahy at Omaha, and for whom a reward of \$75,000 has been offered. Corcoran scraped up an acquaintance with a man at Bernles on Monday, and while talking with him discovered that he wore a false beard and also a wig, with an opening near the roots of the hair showing the

shaved head underneath. Corcoran was immediately selzed with the presentiment that the man with the mask was Pat Crowe, and, led by the seduc-tive hopes of securing a slice of the \$75,000 reward, induced William Putnam to forsake the paths of education for the nonce and seek gold and fame capturing Crowe. Judge Halsey in court today handed down an opinion disposing of the Dit-Honis-Corcoran injunction case. Vincent R. Dillionis is the ex-Catholic priest who has been attempting to held meetings among the Lithuanians here, but has been prevented by Mayor Thomas J. Corcoran, on the ground, the mayor contended, that Dillionis' speeches would incite the unfriendly Lithuanians to riot. Dillionis applied to the court for an injunction to restrain the mayor from interfering with his meetings and to give him police protection. The judge, in his opinion, lenies the injunction on the ground that the case is not within the jurisdiction of the equity court, and that Dillionis' only recourse would be to bring suit against the mayor. Dillionis made another attempt to conduct a meeting last evening, but the mayor again prevented it, although adopting a different course. Dillionis himself was allowed the privilege of entering the hall. No one else would be admitted except the janitor. After waiting a half hour for an audience, and not caring to speak to the janitor alone, Dillionis decided to postpone the

SPECIAL DISEASES OF IS MY SPECIALTY. I Do Not Treat All Discases but Cure

All I Treat.

I made up my mind soon after graduating from college that no man was great enough to master the entire field of medicine and surgery. Many physicians have tried to do this but they have met with results usually disappointing to themselves and often disastrons to their patients. For this reason I determined early in my protessional entert to confine my practice to a single line of disease and to originating and perfecting cures for them.

I have today a SYSTEM OF TREATMENT which I have originated and developed after my whole life's experience in treating of special diseases of Mon, it is based on scientific knowledge, and never falls. I want every attlicted nian to fully and freely investigate my system of treatment. You are particularly invited if you have treated elsewhere without success. I will explain to you why you have not been cured and demonstrate to your entire satisfaction how I can cure you safely and permanently. I treat each case parate and scientifically, closely watching it and carefully following its symptoms with varied remedies through every stage and will stake my reputation on the result. The diseases that constitute my specialty more fully commented upon below and are well worth the careful perusal of all in need of medical attention.

SPECIFIC BLOOD POISONING

On account of its frightful hideous tagious blood poison is commonly called the king of all diseases. It may be either hereditary or contracted. Once the system is tainted with it, the disease may manifest itself in the form of scrofuls, eczens, theumatic pains, stiff or swollen joints, eruptions or cupper-colored spots on face or body, little ulcers in the mouth or on the tongue, sore throat, swotten tonsils, falling out of the hair or eyebrows, and finally a reprotes-like decay of the firsh and bone. It you have any of these or similar symptoms you are contially invited to consult us immediately. If we find your fears are unfounded we will tell you so frankly and relieve your mind. But if your constitution is infected with virus we will tell you so trankly, and show you how to get rid of it. Our special treatment for contagious blood poison is practically the result of our life work, and is indersed by the best physicians of American and Europe. It centsins no dangerous drugs or injurious medicines of any kind. It goes to the very bottom of the disease and forces out every particle of inpurity. Soon every sign and symptom of blood poison disappear completely and forever. The blood, the tissue, the fish, the hones and the whole system are cleaned purified and restored to perfect health and the patient prepared anew for the duties and pleasures of life.

RHEUMATISM

Armie and chronic in all its forms, enlarged and stiffened joints, muscular riseumatism, lumbago, selatics, by my SYSTEM OF TREATMENT shows signs of imprevement at once and in a very short time are par-manently cured.
